

Meritor Parts

Meritor Part - The Meritor Business is a premier global dealer founded upon one hundred years of custom of quality and service. Meritor concentrates on integrated systems along with several modules and parts to the original machinery makers and aftermarket equipment in the transportation and industrial trades.

Meritor values the requirements of their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their international operations. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor encourages collaboration and innovation among a team of experienced experts.

By just employing future focused people, Meritor strongly feels these top-caliber individuals would be able to quickly get used to to changing environments and demonstrate the performance and commitment considered necessary to be able to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides their employees different chances for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that consist of axles, drivelines, suspension and braking systems utilized for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the needs of their worldwide engineering personnel.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated around the globe in 19 nations and in 5 different continents.

The supplier development network is specially located so as to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within every part of the company. The DFSS or also known as Design for Six Sigma ensures product reliability in every region. The team is even comprised of transactional Green Belts who utilize Six Sigma tools to business techniques and apply lean techniques.
